

VARUN GOKTE

2023 BITS PILANI GRADUATE
FULL-STACK DEVELOPER | SOFTWARE DEVELOPER

✉ vsgokte@gmail.com | 📞 +91 9820468029

A motivated and skilled aspiring Full Stack and Software Developer, equipped with a solid foundation in Python, Java, JavaScript, Node.js, and Django, actively seeking dynamic opportunities to apply knowledge and creativity in crafting cutting-edge, efficient solutions. Dedicated to consistently delivering high-quality code that exceeds client expectations.

CORE COMPETENCIES

Software Development Lifecycle
Data Structure & Algorithms
Object-Oriented Programming
Agile Methodologies
Web Development Best Practices
Database Design and Management
User Interface Design
Performance Optimization
Front-End Development
Back-End Development
Server Management
API Integration
Machine Learning

EDUCATION

- **B.E. Electronics and Communications Engineering**, BITS Pilani, K.K. Birla Goa Campus (2023)
- **ISC 12th Grade**, Lilavatibai Podar Senior Secondary School (Science stream, Java elective) (2019)

PROFILE SUMMARY

- **A dedicated Full Stack and Software Development enthusiast** exhibiting proficiency in Java, JavaScript, Node.js, and Django, consistently delivering innovative solutions
- **Previously served as a Product Team Intern** at AlmaConnect, contributing significantly to client onboarding, testing, and QA processes
- **Possesses a solid foundation** in web development, encompassing HTML, CSS, and JavaScript, coupled with expertise in front-end and back-end frameworks such as React and Express
- **Demonstrated competence** in database management, SQL, and MongoDB, having hands-on experience in developing applications utilizing SQL databases and Django
- **Proven ability** to complete projects successfully and achieve results, emphasizing the delivery of high-quality code and meeting client expectations
- **Distinguished** by strong problem-solving and analytical skills, with a knack for swiftly identifying issues and implementing effective solutions
- **Exhibits excellent communication and collaboration prowess**, with a history of thriving in cross-functional teams
- **Committed to staying abreast** of the latest industry trends and technologies, continually expanding skill sets to deliver cutting-edge solutions
- **An effective communicator** with an innate capability to manage & prioritize tasks in high pressure; possess analytical thinking and strong innovative & problem-solving capabilities

TECHNICAL SKILLS

- **Programming Languages and Frameworks:** Python | Java | JavaScript | Node.js
- **Back-End Technologies:** Django | Express JS
- **Front-End Technologies:** HTML | CSS | React
- **Database Management:** SQL | MongoDB
- **DevOps and Version Control:** Docker | Git | GitHub
- **Deployment and Infrastructure:** Linux | AWS Elastic Beanstalk
- **Machine Learning**

INTERNSHIP EXPERIENCE

Product Team Intern | AlmaConnect | July 2022 - December 2022

Key Result Areas:

- Streamlined the client onboarding process, guaranteeing seamless integration of new clients for enhanced efficiency
- Performed comprehensive testing and quality assurance, successfully identifying and resolving issues to optimize product functionality
- Led the development of the updated help center page, incorporating FAQs and user guides to enhance user experience

PROJECTS

- **Profile Website:** Developed a personal profile webpage hosted on GitHub Pages. **Link:** <https://varun-gokte.github.io>
- **Blog Website:** Created a blog website with user registration, post creation, and interaction features. Technologies used: HTML, CSS, JavaScript, **Django**, SQLite. Hosted on **AWS Elastic Beanstalk**. **Link:** <http://blog-env.eba-f2s5dpmn.us-west-2.elasticbeanstalk.com>
- **CRUD Server:** Built a server using Node.js, Express, and MongoDB to perform CRUD operations on a database. **Link:** <https://github.com/varun-gokte/express-mongodb-crud-server>

- **To-do List App:** Developed a **React** application that renders a to-do list, where users can create tasks, and mark them as completed or unmark them. Hosted on **GitHub Pages**. **Link:** <https://varun-gokte.github.io/react-todo-list>
- **Movie List App:** Developed a React application that renders a movie list and retrieves information using the OMDb API. **Link:** <https://github.com/varun-gokte/react-movie-list>

COURSES & CERTIFICATIONS

- **Full Stack Software Developer Specialization (IBM and Coursera):**
 - Introduction to Web Development with HTML, CSS, JavaScript
 - Developing Front-End Apps with React
 - Developing Back-End Apps with Node.js and Express
 - Developing Applications with SQL, Databases, and Django
 - Python for Data Science, AI & Development
 - Introduction to Containers with Docker, Kubernetes & OpenShift
 - Application Development using Microservices and Serverless
 - Introduction to Cloud Computing
 - Getting Started with Git and GitHub
- **Mathematics for Machine Learning and Data Science (Coursera)**
- **Additional Relevant Courses:**
 - Introduction to Structured Query Language (SQL) [Coursera Course]
 - Object-Oriented Programming (OOP) with Java [BITS Pilani Course]

PERSONAL DETAILS

Date of Birth: 29th July 2001

Languages Known: English, Hindi & Marathi

Current Location: Mumbai, India
